

COVID-9 Statement from Professional Practice Sales

First and foremost, we extend heartfelt wishes that you and your loved ones are staying healthy. Filter the news carefully. Adhere to local mandates. Know the stock market bounces back and know there is light at the end of this tunnel. Northern California Dentists have weathered many storms the last 50+ years. You shall weather this one.

Second, we are deeply saddened that your livelihoods are now impacted. We look forward to your returning to work soon. We need you!

With the exception of suspending "Open Houses", it is business as usual at PPS. We are continuing to evaluate new practices to be placed "For Sale", finalizing Prospectuses on new listings and managing negotiations on current listings. Loan applications are continuing to go through underwriting.

As PPS has Photo Galleries on each listing, parties who wish to further investigate a "For Sale" practice shall then execute a Confidentiality Agreement. Once executed, the Seller's name and address shall be provided. If further interested, the Disclosure Package shall be provided for review by you and your advisors. If further interested, a meeting shall be arranged between you and our Client with appropriate social distancing maintained. If you wish to further pursue the purchase of the targeted practice after your meeting, the usual and customary processes shall then play out. This is typically an 8-week process.

Closing dates shall be suspended until it is appropriate to effect a change in ownership.

If you have any questions, please phone PPS and let's chat.
